Received 7 September 2007; accepted 7 September 2007; posted 7 September 2007 (Doc. ID 87276); published 5 October 2007

Two errors were found in our recent paper [Appl. Opt. 46, 4289 (2007)]. © 2007 Optical Society of America
OCIS codes: 160.1890, 190.4870, 230.0040, 300.6430.

In the original paper [1] there were errors in the postal code of the authors’ affiliation and in the value of the wavelength resolution in the text. These are corrected as follows: In the affiliation, the postal code should be 162-8601. On p. 4290, column 1, line 22, the phrase should be “. . . with a wavelength resolution of 12 nm.”
